- Styled-Components
- CSS-Modules
- Chakra UI
- Bootstrap
- SASS/SCSS
- jQuery

### OTHERS

- Git
- Figma
- Firebase
- MongoDB

## PROFILE

As a dedicated Front-End Developer with expertise in React.js, I am committed to creating user-friendly applications by leveraging my proficiency in JavaScript and design skills. With a strong background in front-end development and design, along with my expertise in React.js, I am confident in my ability to seamlessly blend aesthetics and functionality to deliver compelling web applications.

## WORK EXPERIENCE

### Front-End Developer | LBoose inc. | Japan

August 2023 – Present

Tech Stack: React.js, TypeScript, Next.js, TailwindCSS

- Participated in a fast-paced MVP development cycle, collaborating closely with other developers
- Developed and implemented common design components within the organization using TypeScript, Next.js, React.js, and TailwindCSS. These well-designed and reusable components are crafted to streamline communication between designers and front-end engineers across various projects. Created components such as table and pagination, addressing a wide range of design requirements.

### Mobile Front-End Developer | rax | Toronto, Canada

July 2023 – Present

Tech Stack: React Native, TypeScript, Redux.js, Supabase, Git

- Develop a front-end part of a mobile application with React Native, TypeScript, and Redux.js
- Having the opportunity to create the core architecture and develop the front end of 'rax', a mobile application that adapts the Airbnb model to fashion, simplifying the way we borrow and lend clothing.

### Front-End Developer, Designer | AproLink Corp. | Japan

May 2023 – Present

Tech Stack: React.js, React-Router, ChakraUI, Figma, Git

- Develop and design accurate and efficient UI components using React.js and Chakra UI, while proposing UI design enhancements with a user-centric approach.
- Designed the toppage of the website using Figma, tailored to meet client requirements.
- completed the UI implementation task well before the deadline, demonstrating efficient time management and exceptional proficiency.

### Front-End Developer | Nect AI | Japan

Jun 2023 – Jun 2023

Tech Stack: React.js, TypeScript, React-Router, Sass, Figma, Firebase, Git

- Designed and developed their own media blog website, which included creating a top page and article page database set up using Firebase.
- Handled various tasks, such as implementing their Sass product and assisting the Front-end team with adding new functions and implementing language switching mode.
- As someone with a keen eye for UI/UX, I actively sought feedback and strived for continuous improvement of the product's user interface and user experience.

## EDUCATION

### Web and Mobile Application Development Diploma

Courses taken:

JavaScript (ES6+), React.js, TypeScript, Node.js, Java, HTML, CSS, Bootstrap, Algorithm, Git etc...

Cornerstone International  
Community College of Canada,  
Vancouver, BC

May 2022 – Present

### Bachelor of Intercultural studies

Seinan Gakuin University,  
Fukuoka, Japan

Apr 2014 – Mar 2018

### UI/UX Designer| Easy Technology k.k | Japan

Apr 2023 – Jun 2023

Tech Stack: Figma

- Designed the product landing page with visually appealing and user-friendly designs using Figma.
- Collaborated with another designer to implement their vision, using Figma to ensure a seamless design-to-development process.

### Technical Support Specialist, Trainer | Japan Concentrix k.k | Japan

May 2019 – Feb 2022

- Successfully trained over 120 employees and held sole responsibility for project management and communication during the training process. As a result of my training achievements, I was honoured with the Best Employee of the Quarter Award.
- Aimed to produce high-quality training content by maintaining close communication with clients and promptly resolving any ambiguities. As a result, the training program we developed had a dropout rate of less than 3%, which earned us high praise from our clients.
- Offered various customer technical support ranging from supporting the launch of a hotel property's website on the online travel agency site to game player technical support.

## PROJECTS

### Appointly🔗

Tech Stack: React, MongoDB, Express.js, Node.js, Redux, Tailwind.css

A team project to create and share customizable calendar availability with others, enabling them to book appointments, meetings, and events at pre-scheduled times.

### MERN Note App🔗

Tech Stack: React, MongoDB, Express.js, Node.js, Redux, Material UI

Implemented user authentication using JWT and enabled features such as note creation, editing, deletion, and post liking.
